

Gauges

MD240A

Master Model 4102A & 4102B Guages

- Both the 401A and 401B float guages feature a large 10" hermetically sealed dial face with a chrome retainer.
- 4102A- Standard construction gauge specially recommended for tanks up to 84" in diameter. Mounts directly to a 5305 (2" MPT) adaptor.
 - 4102B- Extremely heavy duty gauge for any size storage tank. Mounts with 5331 (2- 1/2" MPT adaptor. Includes a Spirotalic gasket and eight mounting bolts.
 - When ordering, specify model number and adaptor if required.

Tank Diameter	Model #	Tank Opening	Part #	List
72"	4102A	2"	MD240A	\$951.84

J31 Series

Rotary Gauges

Type J31- Series consist of heavy duty gauges that minimize vibration effects (swaying, bouncing) by a long (68-inches) stem tube extension. Gauges fit 1-inch coupling container connections. All gauges have stem and dip tubes with an extra large inside diameter.

LPG Dial (Over 1200 Gal.)	LPG Dial (Up to 1200 Gal.)	List	Length
J31L-1	J31S-1	\$397.46	68"

136619

Sensor

136617

Stationary Tank Monitors

The system consists of two components - a sensor installed at the propane tank and a monitor placed at a remote loction. Propane level in the tank is displayed by the monitor and an audible alarm sounds if the level reaches a preset point.

Item #	List	Description
136617	\$172.04	Residential Unit with sensor and 9 volt battery monitor.
136618	\$172.04	Residential Unit with sensor and 120 VAC monitor.
136619	\$993.28	Commercial Unit for use at remote sites such as radio/radar stations, cellular phone sites, electrical stations and other locations.

Liquid Filled Gauges

Virtually indestructible. Liquid-filled units effectively dampen pulsation and vibrations under severe operating conditions such as compressor service, on pulsating pumps, machine tools, etc.

J254HLM

J254HCB

Item #	List	Connection	Gauge Flange
J254HLM-300#	\$27.92	0-300 psi	1/4" MPT Lower Mount
J254HLM-60#	\$27.92	0-60 psi	1/4" MPT Lower Mount
J254HCB	\$31.78	0-300 psi	1/4" MPT Center Back Mount

Bottom Connection

Back Connection

Pressure Gauges

Fisher now offers pressure gauges with either a bottom or a back connection for LP-gas service. The back connection makes a more compact assembly on installations where space is limited. All the gauges have steel cases.

Bottom Connection			Back Connection

Test Gauges

DWYER Low Pressure Magnehelic Gauges

Consistently accurate, 0-20" water column gauge. Direct reading pressure, vacuum, or differential. Can take an over pressure surge of up to 25 psi. Magnehelic kit includes carrying case, a 9" length of rubber tubing, and two pipe-thread-to-rubber tubing adapters.

Item #	Description	List
2020	Magnehelic Gauge	\$115.56
A432	Magnehelic Kit	\$46.44

2020 Gauge with A432 Kit

Test Gauge Assemblies

50-2

50P-2

50P-5

The Type 50 series is used to check appliance line pressure after the regulator has been installed.

Item #	List	Description
50-2	\$114.08	Gauge Only.
50P-2	\$140.06	Gauge w/ hose and case.
50P-5	\$115.31	Gauge w/ hose.

Gas Test Gauge

For years of trouble free service. Hexagonal steel manifold block is machined carefully and plated against corrosion. Comes with 2" Dia. Drawn steel gauge with brass internal movement and connection. Includes air valve.

Item #	List	Description
U20-04-30	\$29.88	0-30 gauge
U20-04-60	\$29.88	0-60 gauge
U20-04-100	\$29.88	0-100 gauge

Pressure Test Block

Type J600- Male POL by Female POL, test block with 0-300 psig gauge.

TL-051

DWYER® Water Manometers

Slack Tube Manometer

Features open and close connectors and over pressure safety traps to prevent loss of fluid due to over pressure or sudden surges of pressure.

Slack Tube Manometer Kit

A handy, complete kit containing 16 inch Manometer, necessary tubing and connector equipment for checking pressures in virtually all gas appliances, such as water heaters, furnaces, stoves and dryers. Different size manometers may be specified as desired. Kit contains:

- No. 1211-16 Slack Tube Manometer, reads pressures to 16" water column.
- Carrying case, 9" x 1 1/2" x 2 1/4"
- 3/4 oz. bottle florescent green color concentrate with wetting agent.
- 1/8" pipe thread rubber tubing adapters 1 1/8" to 1/4" pipe thread bushing.
- Rubber tubing adapter to fit standard 7/16" dia. spud.

Item #	Description	List
1211-16	Slack Tube Manometer	\$110.70
1212	Manometer Kit	\$143.10
A-126	Florescent Green Color 2oz.	\$9.88
A339	1/8" MPT x Hosebarb	\$3.44
