### First - Staged Regulators

R522H

R312H

First-Stage regulators reduce tank pressure to a lower pressure (usually 10 psig) for a Second-Stage regulator. Fisher First-Stage regulators are painted red for easy identification. Vents are screened with standard orientation over the outlet.

**Type R312H** - Designed for use as the First-Stage portion of a Two-Stage regulation system on domestic applications.

**Type R522H** - Constructed of corrosion-resistant and wear-resistant materials, the R522H is less susceptible to corrosive environments.
