Quick Closing Coupling

G1851-AO2

Connects to Sherwood 3349 Series grill cylinder valve- Provides excess flow protection and thermal shut off protection for grill cylinders. After closure, bypass flow is only 10 CFH at 100 psi inlet pressure. The thermal shutoff occurs when the temperature of the plastic coupling reaches 240 to 300 degrees F. and the material softens, allowing the check valve to close off the flow.

Algas Vaporizers

Converts LP-gas from liquid to vapor (gas) for a mixer or the distribution system. Since the vaporizer turns large amounts of liquid to vapor instantly, fewer (or smaller) LP-gas storage tanks can be used for a given installation.

Item #	List	Liq. Inlet	Vap. Outlet
80/40H	\$4534.75	³ / ₄ " FNPT	1" FNPT
40/40H	\$2810.00	³ / ₄ " FNPT	1" FNPT

Algas SDI Electric Vaporizer

PowerXP

Vertical electric single core vaporizer

- **Waterless electric vaporizer:**
 - No corrosion.
 - No refilling.
 - No sediment.
 - No burnt-out heating elements.
- **Explosion proof design:**
 - Can be mounted next to tank or building - no distance requirements.
 - Saves real-estate.
 - Safe!
- **No flame or pilot.**
- **Works in any weather.**
- **Self contained:**
 - Requires no additional remote mounted controls for operation.
 - Complete with all controls and safeties.
- **Instant operation:**
 - Reaches operating temperature in one minute or less from cold start!
